	These heifers were excellent to handle in all areas of the yards. The very odd heifer was a little bit unsettled on the weigh platform but settled as soon as they were released to the mob.

Notable Traits	Traits 1 Head Cloudy blue eye 2 Head Ring worm scars			
Assessor Comments	Buyers, a small line of heifers from Paspaley Pastoral Company that have presented in mainly forward store and a couple in prime condition. These have had the opportunity to the bull but didn't go in calf and have been pregnancy tested non-detectable. It is very dry here, so the decision has been made to quit them now in an effort to retain feed for mature aged females that are in fact PTIC. These would suit a feedlot for direct entry to either domestic or export feedlot entry specifications. Could even be a couple a little bit too heavy. They are a mix of straight Angus and F1 & F2 Angus/Poll Hereford cross types. They are very good to handle in all areas of the yards and appear heathy. There is also a larger lot of weaned heifers and a smaller lot of weaned steers from the same property that are also included in the sale. Parallel assessment Jono McMahon & Jake Evans.
