| Assessor Comments      | A good line of EU Steers that were all weighed out above 240kg. They had a 25% tail removed at Assessment. In normal season these steers would be sold to any of the major feedlots as EU export Feeders. They are from a classed herd, with the vendor selecting bulls for growth performance and temperament. Please note they were taken off their mothers the day before assessment, and will be handled daily in the yards, while being fed oaten hay and molafos up until delivery. |
