	The vendor has spent the time on these heifers at weaning and they walked through the crush very smoothly at assessment. The heifers walked in quietly from the paddock and were good to move between yards with only an odd heifer wanting to rush.

Assessor Comments	An outstanding opportunity to secure an excellent line of Te Mania bred Angus heifers. These heifers are the top draft of the 2025 drop and were selected to be retained as future breeders, however the vendor has made a management decision to offer the heifers for sale. These heifers are from a self replacing Angus cow herd that has been using Te Mania Genetics for the past 7 years. When purchasing bulls they have placed high importance on IMF, EMA, Calving Ease as well as moderate mature cow weights. These heifers are excellent types with plenty of softness & style. They are ideal heifers to grow out and join and set to mature into excellent breeders.
