| Assessor Comments      | A neat draft of young weaner heifers out of a good maternal shorthorn cow base from "Malton Shorthorns". By leading Wagyu sires, these heifers are usually retained and sold as feeder weights, only being offered due to the tight seasonal conditions. Keep these heifers as future breeders or take on and grow out.                                                                        |                                            |                                     |
