Extremely quiet cattle, easy to handle. Always very quietly managed.

Handled With Bikes , On foot , Vehicles

Assessor Comments A well presented line of 55 weaned, AA Steers that have all the capability to grow out to any weight. March/April 2025 drop, averaging 378 kg curfewed. They are EU accredited, Never Ever accredited, and are eligible for PCAS. They have been yard weaned, and are ready to go. This line of steers is the top draft of 55 out of 90, and present in fresh forward store to forward condition. They have been drafted to a tight weight range, with the lighter tail drafted out. They show excellent weight and growth for age, with plenty of frame and the capacity for further significant weight gain. Temperament wise they are a docile line of steers to work with, and handled quietly through the crush. Only 1 arced up slightly under pressure. All in all, a very neat and tidy line of weaned steers.
