	Heifers were good to handle throughout yards and when assessing and preg testing in crush. Heifers are broken in and flow through yards well, 3 heifers became slightly stirred when preg testing but when released calmed down when reunited with other cattle. Good cattle to handle with persons with prior stock knowledge.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Notable Traits	Traits 4 Head Big Patch of White on Navel and back to udder 14 Head Small Patch of white behind navel on udder		
Assessor Comments	89 Angus X Angus NSM PTE Heifers. Originally purchased ex Victoria weaner sales heifers have been grown out on buffel plains since. Preg tested empty for buyer confidence heifers haven't had access or seen any bulls with intent of growing into feeders only selling due to drying seasonal conditions. Heifers are Rennyalea & Landfall bloodlines suitable future breeder replacements. Please note 7x with Pinkeye scarring fit to load. Heifers were quiet and easy to handle throughout yards with only 3x becoming slightly stirry when assessed in crush. Buyers a good line of well bred southern cattle to suit any Angus replacement programs with good frame to grow out into feeder weights given opportunity.
