Assessor Comments	A very good line of weaned Angus steers. Steers averaged 269 kg at assessment, forward store condition & good weight for age. Weaners handled well through the yards and around the paddock. Weaners have had bovi- shield & Rhino guard before weaning. Crosby cattle have previously performed exceptionally well in feedlots. An ideal lot of educated steers to grow-out into feeder weights, alternatively hold for a quality kill carcass. NOTE: 3 steers had mild blue eye scarring. 11 steers had slight white on purse. BUYERS PLEASE NOTE: 88 weaned steers of Ingle Vale Partnership available in this same auction from the SAME property. Vendor has multiple lots in sale.
