	Very well handled heifers that are well weaned a pleasure to handle. Please see video, this is the first time the heifers have been out of the yards during weaning.					
Handled With	Bikes , Dogs , Horses , Vehicles					
Assessor Comments	A top quality draft of weaned antibiotic free, grass fed and homeopathically raised Angus future breeders. These future breeders are sired buy high indexing Texas Angus bulls and present in great condition after weaning. They were weaned on the 1/3/26 and will remain in yards on top quality oaten hay until delivery. Heifers will also be handled and broken in outside through this time to dogs & bikes. A nice line of high performing Angus heifers not to be missed for any grass fed, domestic program or grow out for future breeders, with years of Texas Angus genetics. Please Note: A couple of heifers were noticed to have old pink eye scaring, not considered detrimental or affecting them in any way. A small percentage of heifers had a little white on belly or udder.					
Assessor	Ben Hiscox (Level 2 Accredited) Phone: 0429 669 313
