Notable Traits	Traits 3 Head Old pink eye scaring in one eye.		
Assessor Comments	A Good quality line of British and Euro cross milk and two tooth steers that are ideal feeder steers. Majority of steers were purchased as weaners back in May/July of 2025 out of the Hunter Valley and Northern rivers regions. Steers have grown out well and are now ready to be finished. Steers are set to go immediately into the feedlot as they are at the right age and are all frame that offer great compensatory weight gains, steers averaged 415 Kg's full at assessment. Please see another line of 61 Angus steers from the same place and vendor. Great feeder types not to be missed.
