Notable Traits	Traits 1 Head Missing brush off tail 10 Head Old pink eye scarring in one eye 2 Head Showing some extra sheath 2 Head White markings to sheath.		
Assessor Comments	A good Quality line of Angus x Angus feeder steers to come off the very productive country of "Wongwibinda Station" in the Wongwibinda area. This line of Angus feeder steers have were purchased as weaners from southern producers predominately on A+ around Autumn/Winter of 2025, with balance out of Hunter Valley and have backgrounded to supply the feeder market. In perfect feeder condition these steers are primed for the feedlot as they offer very good compensatory weight gains as they are all frame as they have endured a continued dry spell. Steers show plenty of stretch and bone with capacity and thickness to match to handle a short or long fed program. A run of 130 Head of the tops has been selected to maximize trucking of 5 decks and social stability with in the mob maximizing performance when at the feedlot , steers have averaged 412 kgs full at assessment . A great opportunity to secure a large line steers that are of good quality angus feeders to suit all end markets.
