Assessor Comments	A very nice line of well-bred Angus Heifers, which were purchased in May 2025 as one line from the breeder at Gundagai. Heifers are pure Bongongo genetics, with the breeder having used Bongongo sires in their herd for the past 14 years. Heifers have had no access to bulls, but the vendor is willing to pregnancy test heifers prior to delivery on request of the purchaser. Heifers have grown out extremely well and are showing plenty of frame and stretch. These heifers would be ideal to join as future breeders or background and feed for a high-end Angus program.
