	Quiet: 120 head	Quiet: 120 head	Quiet: 120 head
	Steers handled extremely well through the yards, most steers were very quiet through the race and weigh box, 2 steers became a little unsettled in the weigh box.		
Handled With	Bikes , Vehicles		
Assessor Comments	These steers are only 7-8 months of age and have been weaned for approx. 6 weeks. steers are currently grazing dry native pastures and appear to be on the move. these steers are grass fed eligible, also have a very strong reputation for their feedlot performance These steers are progeny of the highly regarded Greenhills Shorthorn cow herd . they are sired by Yamburgan Shorthorn sires please note there is the odd blue cloud in eye, however in general eyes are very clean.there is the odd old ring worm scarring(not detrimental), also 2 steers were noted with a very small vaccination lump (Not detrimental) please note that these steers are predominately red and roan in coat colour, with 7 whites.(please refer to photos for better visual description)
