Assessor Comments	Quality line of April–May drop, vendor-bred Angus steer weaners. These well-bred steers are out of medium to large framed Angus females and are sired by high-indexing Reiland and Flemington Angus bulls. These steers are showing excellent growth and weight for age and would suit any backgrounding or finishing program. The steers have been yard weaned, received all standard health treatments, and are ready to perform. Previous buyers have been very pleased with the performance of Sutton O'Brien cattle, reflecting the consistency and quality of the program. These steers come at the assessor's highest recommendation and are expected to perform. Please note: The vendor will also offer a line of 18 Angus heifers in the same sale.
