Assessor Comments	A small line of August/ September '25 drop Angus & Angus Cross weaner heifers from Jagumba that averaged 173kg full (140-210kg) at assessment. These heifers are sired by Kunama, Milwillah and Te Mania Angus bulls out of a predominantly Angus cow herd with some Santas / Angus x Santa cows in the herd. Cattle are run on predominantly native pasture country in the Kosciuzko National Park and will perform better on heavier country. Providing plenty of options to grow out to join or suit either feeder or kill markets - they are grass fed and antibiotic free eligible being Never Ever Accredited. Please note; vendor also offering 59 steers in this sale.
