Excellent cattle to handle for weaners that have been weaned and well educated. Odd steer was a little bit unsettled on the weigh platform but nothing unusual.

Handled With: Dogs , Horses , On foot , Vehicles

Notable Traits

3 Head	Eye Scar
1 Head	No tail (see photo)

Assessor Comments: This is the complete drop of August/ September '25 drop Angus & Angus Cross weaner steers from Jagumba that averaged 205kg full (156-267kg) at assessment. These steers are sired by Kunama, Milwillah and Te Mania Angus bulls out of a predominantly Angus cow herd with some Santas / Angus x Santa cows in the herd. Cattle are run on predominantly native pasture country in the Kosciuzko National Park and will perform better on heavier country. Ideal line to grow out to suit either feeder or kill markets - steers are grass fed and antibiotic free eligible being Never Ever Accredited. There were 3 steers with a pinkeye scar and one steer born without a tail but is one of the better steers in the line (see photo). Please note; vendor also offering 13 heifers in this sale.
