Assessor Comments	Bred predominantly on Rennylea & Dunoon blood, these PTE heifers present a great opportunity for some compensatory gain. These 2.5yo (2 & 4 tooth) yearling heifers have come through one of the tightest seasons in recent memory. All have had their first calf weaned in the last 3 weeks and present in genuine store condition. A great opportunity to secure a b-double (83 in 2 lots) of one mark, Preg tested not detectable heifers with plenty of genetics and frame to go ahead and utilise any opportunity thrown at them. The Hanna pastoral cattle often enjoy the support of repeat buyers. EU & Greenhams Never Ever accredited.
