Assessor Comments	Buyers, here is good line of straight Angus steers with plenty of compensational weight gain averaging 369kg. These steers show great frame with good length of body and depth of flank. This line of steers show great breed characteristics with softness and spring of rib. Steers are out of medium to large frame Angus cows by top quality pathfinder bulls. Steers were very good to handle through yards. This is a great line of steers to put on oats and sell in the winter.
