Comment on Fat Score 1 Cattle	All score 1 cattle presented are fit to travel long distances.
Vendor Bred	Yes
Stock History	Bred from very good quality Angus cows purchased as heifers and cows from the New England area of NSW a few years ago. At the time they were assessed as 100% Angus X Angus.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Breeding Comments	By an AI son of a Texas Angus bull, Glenisa Angus, a son of an Alumy Creek Angus bull. Also AI sons of US bulls Musgrave Exclusive & Sydgen Enhance.
Grazing Conditions	Running on a very dry coverage of native summer grasses that has seen limited summer rains so far. The past 2 weeks they have run on improved pastures of Rhodes grass and Premier Digit. Returned same
Burr/Seed in Coat	Noted the odd Noogoora burr in coat.
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives

Health Treatments	Drenched	10/12/2025	Cattleguard (weaning)
Chemical Residue	Clear - No known history		
Vendor Comments	These are part of an annual turnoff of weaner steers. These cattle have had no grain or antibiotic at any stage of their life and happy to sign a declaration.		
Temperament	Yards	Crush	Paddock
	Quiet: 37 head	Quiet: 34 head Slightly Stirry: 3 head	Temperament not assessed in Paddock
	Steers were very quiet in all areas of the yards. Approximately 3 head did resent being in the crush but they settled down very quickly once they exited the crush and were back with the main mob.		
Handled With	Bikes		
Notable Traits	Traits 1 Head Blue eye (treated) 2 Head Cloudy blue eye 4 Head Light warts on head		
Assessor Comments	Buyers, good quality Angus steers bred from females purchased out of the New England area that present in mainly store condition. The steers are very quiet; the vendor's always do an excellent job throughout the weaning process and is reflected in these. The steers are bred on lighter country, and I will suggest they will fly ahead if they get access to better feed conditions especially on heavier country. There has been plenty of rain north of the border regions that have completely missed out and would be an opportunity to fill paddocks. All the hard work is done; they are well and truly over the weaning process. Ideal to put away and background to heavier weights and meet all export feeder specs later in the year. Cattle from Wongavale are continually attracting repeat buyers, evidence they must perform. There are also 62 heifers available to be purchased from the same property to fill decks if required.
