Quiet: 19 head	Quiet: 17 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Heifers were mostly good to handle in the yards & crush, two heifers would not settle in the crush though they settled when back together in the yard with the rest of the mob.

Handled With: Bikes , On foot , Vehicles

Assessor Comments: A small line of backgrounder heifers, mostly medium to large framed. They are by Angus bulls (The Grange, Baradine NSW) out of Hereford & Hereford cross cows. Early weaned in yards in December for 5 weeks on pellets and lucerne hay these heifers now average 207kg at 5-7 months of age (min 186kg, max 240kg). Heifers are the full drop of this weaning group with the potential to suit a range of markets from future breeders or to grow out on feed. Note delivery days, flexibility will be necessary. Located just 2km off the Cunningham Highway, 5km East of Yelarbon. Note same vendor also has the brothers of these heifers in the same sale.
