Heifers handle very nicely through the yards and up the race. Just about all stood calmly in the crush and exited smoothly. A pleasure to work with.

Assessor Comments: A mostly good to very good quality line of vendor bred Shorthorn heifers. There was extended calving in late 2024 and 2025 with two seperate weaning dates in June and September. The range in age from 8 to 13 months .They are medium to large framed heifers that suit to take to heavy domestic feeder weights and then crop or grain finish. They have not had access to grain and would be eligible for grass finished programs. These heifers have been going along well but the season is starting to turn. Please note agent can complete NLIS transfer at no charge at the buyers request. These heifers were very good to handle in and through the yards. They are nice and fresh in the coat and will continue to move forward with access to good quality feed.
