	Vaccinated	28/12/2025	Ultravac 5 in 1	Booster

Vendor Comments

Second draft of Steer Weaners, happy with weaning weights considering the rainfall & season. Normally retained and grown out to feeder weights.

Temperament

Muscle Score	
C	75%
D	25%

Yards	Crush	Paddock
Quiet: 47 head	Quiet: 47 head	Temperament not assessed in Paddock

Properly weaned & educated steers. The vendors have put time & effort into handling these calves and it shows when being assessed and in the videos. Exited the yards in a quiet fashion walking back to their paddock without so much as breaking into a trot. Walked through race and stood on scales with a minimum of fuss. Out of a herd that all have a quiet temperament. Pleasure to assess.

Handled With

Bikes , Vehicles

Notable Traits

	Traits
10 Head	Odd old ringworm on some steers, clearing up now
3 Head	Old pinkeye scarring, still have sight from affected eye

Assessor Comments

Vendor Bred, Autumn Drop Steer Weaners offered by the Harbison Family. Second draft of vendors 9 - 10 month old calves that have grown out well considering the challenging conditions & lack of rain. Traditionally grown out to feeder & kill weights the deteriorating season dictates their sale. Steers present in store order, not carrying any excess condition. There was a small amount of Ringworm on some steers and 3 steers had old Pinkeye scarring that was not active with full sight still in eye (see photos for example). Properly weaned & yard educated these Steers were a pleasure to draft & assess. Dunoon blood steers out of a large framed cow herd that will make ideal feeders or equally suit a grass or grain export job. Steers are freezebranded on Nearside Rump. Vendor also has 35 Heifers, similar description, in the same sale. Grass fed & antibiotic free declaration available upon request.
