Assessor Comments	46 Angus heifers purchased from Glendinning Station in Aug. When they arrived they were only light though have powered the weight on since arriving. They are all weighed from 346kg - 465kg to av 414kg full. Good looking hfrs that have the quality and genetics to be joined or fatten to be killed. There are 2 hfrs with a little white on their udder. They have lost a bit of condition in the past month as they have grown frame. Well bred Angus heifers
