Assessor Comments	A quality line of purpose bred, heavy weight, 5 y/o Angus cows with Wagyu calves at foot. Cows exhibit the size, structure, and maternal traits to take their calves through to weaners and achieve a weaning weight similar to an Angus joining. This line of cows was purchased to be amalgamated into the vendors, industry recognised F1 programme, and are only being offered due to their calving window not being compatible with current management strategy. Cows are NSM allowing the successful purchaser to join to a bull of their choice. Considered suitable for most commercial Angus operations,
