Handled With: Dogs , Horses , On foot

Notable Traits

	Traits
3 Head	Blue spot on eye/Old pinkeye scar

Assessor Comments

An excellent line of Spring calving Angus heifers. These heifers show good frame and type. They have been preg-tested and are due to commence calving in August for a tight 5 week calving period. They are joined to excellent quality Reiland Angus bulls (bull info attached in photos). These heifers have a great genetic background coming from Milong's commercial herd and should mature into large frame Angus cows producing high quality progeny for many years to come. NB: odd heifer with warts.
