Assessor Comments	Part dispersal of the 'Koroit Park' Autumn calving herd. All cows are on their 3rd calf. These females were originally purchased as top of the drop heifers from the Casterton Weaner sales in January 2023. Joined to Pathfinder Angus bulls selected for a balanced set of data, with an emphasis placed on growth, muscle pattern & structure, including feet! They were pregnancy tested in calf by Brad Pickford on the 26th of September & are due to calve over a 4 week period starting March 24th. Cows present in prime condition & have proven to breed fast growing calves that can thrive under tough conditions. The heifer calves have recently been sought after by repeat purchasers to enter joining programs. There is 1 Black Baldy cow in this mob that the buyer can take or leave at their discretion. ** Vendor has another 3 lots of cows, also drafted into 4 week calving groups in this sale** All cows will be re preg tested prior to delivery!
