Assessor Comments	These heifers were being kept for breeders by the vendor but due to a change in an agistment arrangement they are being sold to make room for breeders. The heifers are ideal for anyone wanting a small number of mostly PTIC heifers or to increase breeder numbers, they have mostly been running on traprock country. The heifer with a blue eye showed no sign of having sight in that eye. Of the heifers handled 6 had white around the udder. The bulls these heifers are joined to have not been recorded for calf birth weight. The bulls used are from Tudor Valley Angus Stud.
