Assessor Comments

A nice, even line of 17 heifers ptic to have there second calf. Heifers are predominantly Santa Gertrudis × Charolais and have been bred by some of the most renowned producers on the Northern Rivers. Joined to quality Lindesay View Limousin bulls and vet tested incalf 2-4 months. These heifers show good temperament and have the genetics to produce growthy, saleable calves. An ideal opportunity for those looking to add young, productive breeders with longevity ahead of them to their herds. Heifers available as they are surplus to the vendors requirements. Same vendor has two other lots offered in the same sale. buyers note, the vendor weaned first calves from these heifers at assessment.
