	Heifers were good to handle during the assessment. An odd heifer was unsettled under pressure but was fine once returned to mob.					
Handled With	Bikes , Dogs , Horses , On foot , Vehicles					
Assessor Comments	A nice, even line of 22 heifers that are springing up for there second calf. Heifers are predominantly Santa Gertrudis × Charolais and have been bred by some of the most renowned producers on the Northern Rivers. Joined to quality Lindesay View Limousin bulls and vet tested incalf 4—8 months. One heifer from the draft in it entirety has already calved and is doing a good job with a healthy calf at foot. These heifers show good temperament and have the genetics to produce growthy, saleable calves. An ideal opportunity for those looking to add young, productive breeders with longevity ahead of them to their herds. Heifers available as they are surplus to the vendors requirements. Same vendor has two other lots offered in the same sale. Buyers note that the heifers first calves where weaned at assessment and being retained by the breeder.
