Vendor Comments

Offering an opportunity due to dry times to purchase females directly from the stud herd. Even with the strong market conditions pressuring to sell to processor, we have chosen to let these quality females breed on in to the future.

Assessor Comments	Cattle of this quality, directly from the stud herd are rarely offered. The Carlow family at Kidman Poll Hereford have been breeding exceptional quality Hereford since 1986. These females have been part of a hard decision given extended dry seasonal conditions. The cows are as always from the Kidman herd, eye catching with plenty of growth for age, bone, volume and correctness right down to their feet. These females are packed with maternally focused genetics with years of consistent selection behind them. These cows sell PTIC to Tobruk Regent & Kidman Ramsay and are due to commence calving in April. Bloodlines in these females include their sires Kidman Evident Q098, Wirruna Rambo R076 & Hunter Lakes Lancelot L103 to name a few whom are proven to have produced quality in the Hereford breed. Again, this is a rare opportunity to secure females of this high caliber and come with a very high recommendation by not only our agency but also the repeat clients of the Kidman stud.
