Comment on Fat Score 1 Cattle

2 heifers a little lighter in condition than the rest, however still presenting as strong & healthy

Vendor Bred

No

Vendor has owned stock for 6-12 months

Stock History

Purchased ex AuctionPlus, from Earliston VIC, in predominantly one line of PTIC heifers, joined to Campbell Farms Angus bulls. 3 similar heifers, with slight cross in the breeding, included in this lot, are out of another line purchased ex Dunedoo

Lifetime Traceable

100% of cattle in this lot are Lifetime Traceable

Bloodlines

Heifer bloodline based largely on CAMPBELL FARMS ANGUS genetics.

Grazing Conditions

Dried-off Native & improved Summer grass pastures.

Returned same

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment			
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives

Vendor Comments	SURPLUS TO REQUIREMENTS			
Joining Details	Not Station Mated			
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.			
	Quality Grades		Store Condition	
	Good	100%	Store	91%
			Bck Store	9%
Temperament	Yards		Crush	Paddock
	Quiet: 32 head		Quiet: 29 head	Quiet: 32 head
			Slightly Stirry: 3 head	
	Heifers worked through the yards with general ease. 3 heifers were a little unsettled whilst being caught in the head bail for mouthing, however they settled quickly upon release. Very settled & quiet in the paddock for photos			
Handled With	Bikes , On foot , Vehicles			
Notable Traits	Traits			
	5 Head Slight white on udder of 3 heifers, extending towards the underline/navel on another 2 heifers			
	2 Head Very minor old blue scarring in one eye only			
	2 Head White scarring in one eye			
Assessor Comments	A good quality line of well bred, medium framed Angus first calf heifers & calves. These heifers are displaying good conformation & are presenting in fresh store condition.They are doing a terrific job of nurturing a reasonably even drop of sappy calves, in very challenging dry conditions, which are showcasing good shape & softness. These heifers have sacrificed a little bit of condition in maintaining the calves in very dry local conditions, but are still fresh & forward enough to realise very good compensatory weight gains if introduced to better quality, fresher feed. Quiet, easy to handle cattle, bred primarily from quality CAMPBELL FARMS ANGUS seedstock, which should transform very quickly into a very attractive article with access to more available feed. An excellent & rare opportunity to replace old worn out, heavy prime cows, with good quality, 2 for 1 Angus first calver units, with little to no, out of pocket expense, due to a very strong current export cow market.			
Assessor	John Hyland (Level 1 Accredited)
