	Cows worked well though yards, with very few becoming nervous under pressure whilst weighing and assessing. Cows were very safe to walk through during photographing. Genuinely quiet.			
Handled With	Bikes , On foot , Vehicles			
Assessor Comments	Buyers, on offer is a neat line of 14 PTIC Angus & Angus infused cows with calves at foot. Cows are vet preg tested 2 - 4 months in calf to Angus bulls, and age between 2 & 5years. Cows have calves at foot sired by Angus & Charolais bulls, with 7 male calves averaging 185kg and 7 heifer calves averaging 134kg. These cows would be ideal to boost breeder numbers or would be a great starter herd with a guarantee of calves on the ground by spring. These females were purchased to be embryo recipients however due to pregnancy are unable to be implanted. Overall a great chance to purchase some quiet, easy to handle young breeders with plenty of life ahead of them.
