Assessor Comments	A rare opportunity to purchase good and very good quality, genuine breeders. Out of a breeding herd that has been selecting for Fertility, Temperament and growth for age for generations. Mostly medium and large frame cows with the smaller framed cows being younger cows, 29 are on their first calves and should continue to grow given the right nutrition. 87% of these cows are 6 years old or younger, and with the average calf being 166kg it is expected that there would be a high percentage of cows back in calf, making them 3 in 1 units. Tidy around the heads, sound udders, good feet, fertile and quiet, these cows and calves are genuine breeders and not culls are only being sold as vendors have missed most of the early storms and need to make room.
