Assessor Comments	offering 42 x 33 station mated cows and calves being 1st & 2nd calvers these young breeders present in good store to forward condition these young breeders are of good medium to odd larger framed that offer massive compensatory weights once on better feed good clean heads observed 1 small horn in group 100% weighed majority group 350-450 top weight of 504kg 33 unmarked calves weighing from 55-170kg. bulls back in for a little over 8 weeks as of day of assessment and will remain with them until trucking, at assessment 9 cows still yet to possibly calve these haven't been preg tested but have had the same joining to still Calve (dry cows less \$300). Calves are by quiet, clean-headed Droughtmaster bulls a trait once again reflected in the calves breeders were good to handle from back yards through to crush with only a small number being stirry offering a great draft draft of breeders in there prime Vendor is located 10km East of St George on the Moonie highway with easy truck access.
