Vendor Comments

Quality line of PTIC Angus heifers that have over 40 years breeding behind them. The breeding program for the herd has always been to supply quality bred feeder steers for the long fed Angus Program and to produce quality replacement females.

Joining Details

Preg Tested?	Yes, this lot was pregnancy tested, by Dr Craig Lock (Vet) on 14/01/2026. 34 Head (100%) PTIC, from 2 to 4 months (at time of assessment 15/01/2026). Certificate Available. Certificate Number: P76455		
Other Joining Details	Vet noted on the certificate (see in documents) that the majority were 9 to 15 weeks of gestation at time of assessment on the 14th of January.		
	Quality Grades Very Good 59% Good 41%		
Temperament	Yards Quiet: 34 head	Crush Quiet: 31 head Slightly Stirry: 3 head	Paddock Temperament not assessed in Paddock
	Heifers handled extremely well considering being in the yards the day before for pregnancy testing, Heifers had quiet easy to handle natures and were easy to move in and around the yards and responded to dogs very well also.		
Handled With	Bikes , Dogs		
Notable Traits	Traits 2 Head Old pink eye scarring in one eye 1 Head Old scarring in both eyes - vision fine 1 Head Tinge of red over poll of head		
Assessor Comments	*** HERD DISPERSAL *** These heifers represent the first stage of the herd dispersal of waterfall way Grazing, this brings to end of over 40 years of breeding that was started by Quentin Braund - Calpet Pty Ltd. An extremely well bred line of front paddock Angus heifers are on offer that present in great condition and are showing great weight for age characteristics. Heifers are soft easy doing types of females that ooze femininity, stretch and are well balanced that will make for perfect future breeders. Heifers have been joined to sons of Rennylea S258 to start calving early July onwards with the vet noting that the majority of heifers tested were within 6 weeks of gestation between each other that should result in a tight calving. Heifers will be sold as a run out of the gate scenario of two lines of 34 out of a mob of 68, No better opportunity presents to buy quality front paddock females packed with breeding and calving at the right time to LBW Genetic lines to quality bloodlines.		
Assessor	Steve Daley (Level 1 Accredited)
