Assessor Comments	Cows that are in the prime of their lives here. Only being sold due to continuing dry conditions in the Central Tablelands. These cows were purchased as weaner heifers in 2022 and have been excellent for the breeder since. They have all successfully raised 2 calves and are PTIC for their 3rd now. Calving in a great window from that June till Aug. These cows present in strong condition and are fresh with good fat cover. Calves have been weaned off them since mid December. Young cows that will fit most programs.
