Assessor Comments	A small but very neat group of rising two year old AI bred Angus heifers. Specifically bought in and joined to the Genetics Australia AI Sire True Blue, the bulls Ebvs are attached as a link to the assesment for buyer confidence. These young heifers come with the highest recommendation, every animal health protocol is done and they are well handled which would compliment the most astute Angus herd. Please note vendor has 4 other lots in todays sale totalling 58 of PTIC head.
