Assessor Comments	A neat line of first calvers been 55 cows with 55 calves at foot. Cows are presenting in fresh forward condition and milking very well. The calves are quiet fresh and have been marked and also vaccinated with 5-1 at marking (but not tagged). These cows are all 2023 drop, they havent been back to a bull yet but are ready too. They Watervalley stock are well known for their doing ability. They are bred on light sandy country so when shown hard feed they just keep growing. In this line there is 3 calves with cloudy eyes but have been treated and not detrimental to the health of the calves. Cows are bred out of the Watervalley Black Angus heard and the calves have been sire from Minamurra bred bulls based from the Pathfinder blood line.
