Assessor Comments	Here are a very good line of Angus cross cows and with Limousin cross calves at foot. Calves are by Tarraby Park Limousin Bull. Cows are middle age to aged cows who are in terrific condition for their age. These cows were excellent to handle and are very quiet. The cows are doing a good job on calves with weights of calves for their age being extremely good. All but 1 calf have been marked so most of the work has been done on these units. Cows have been running back with same Limousin bull for 56 days so a good chance they could be back in calf. These cows in the past have been 3 germ blooded for ticks. The Santa Angus cross cows are Eidsvold Greenup bred. If you are looking for some cows and calves to breed on with or as a turnover job these cows would be ideal. Please note this vendor has another lot of heifers and calves in this sale.
