Notable Traits	Traits 2 Head Small white mark in udder area					
Assessor Comments	FRONT PADDOCK CATTLE -A very good quality line of 10 vendor bred Angus x Angus heifers with Inglebrae Stud Angus genetics on both sides. The heifers show all the true characteristics of well-bred Angus cattle that are proven Breeders being PTIC for their 2nd calf. The heifers weighed 512kg to 738kg to average 648kg full, with an estimated delivery weight of 617.5kg. Our vendors pride themselves on investing in the best genetics and producing quality cattle that are a pleasure to handle and that will perform going forward. This is a great opportunity to secure 100% Inglebrae Angus genetics and they are only being offered for sale due to the very dry conditions. These cattle have the agent's highest recommendation.					
Assessor	Glen Curry (Level 1 Accredited) Phone: 0412 269 363
