Assessor Comments	A good line of heifers on their first calf. Principally Angus Heifers with 9 Angus Cross Heifers in mob. Heifers are medium to good frame with 2 smaller heifers. Heifers are doing a very good job on their calves. 28 Calves at foot (1 set of twins) 13 Steers & 15 Heifers - weighing from 99-243kgs to average 163kgs. Heifers were preg tested empty in January but bull has been running with them since. Approx 2 cows in mob (4 years). These heifers are doing a great job on their calves and would be ideal or replacement breeders. Very good temperament. Heifers were assessed after being in holding yard overnight, no feed but on water. Buyer to make judgement on assessed weight.
