Vendor Comments

This is a regretful sale as these heifers are a lovely line of future breeders who deserve to be given another chance. They are easy to handle with only a couple getting stirry in the yards when being handled

Assessor Comments	This is a great line of PTIC heifers that don't see the open market often. These would not have been offered for sale except for the prevailing poor season. They are well bred large framed Angus heifers. Highly recommended. The pictures and video demonstrate the quality of the heifers. To calve over a 3 week period!! Heifers come highly recommended and will not disappoint.
