Handled With	Beautifully quiet, easy to handle heifers overall. 1 Heifer was unsettled whilst being mouthed, & showed nervousness/flightiness when pressure applied.			
Notable Traits	Traits 1 Head Very minor blue scarring in one eye of one heifer. Sight not affected. 2 Head Very slight white markings on udder / underline			
Assessor Comments	A nice line of one-mark, beautifully quiet tempered, REDBANK Angus sired, PTIC heifers. These heifers are well developed, exhibiting good large frames for age, with impressive carcass shape along with softness & stretch in abundance. Heifers are presenting in very fresh, forward condition, putting them in perfect stead to continue growth & development throughout their pregnancy term, whilst not being overdone for calving. Easy doing heifers, which were a pleasure to handle through the yards, due to their quiet nature. Heifers have been joined to registered bull, TeMania R-455, selected for low birth weight figures combined with very good growth rates, & are all set for a late Winter / early Spring calving. A very attractive, top quality line of soft & shapely PTIC heifers, which are well grown, & should continue to develop into lovely, quiet, large-framed young cows. A great opportunity to secure a top quality, one-mark line of young breeders with a lifetime of production ahead of them.
