Assessor Comments	Heifers that were selected to become replacement breeders. The tight season is forcing the sale of the PTIC heifers from Oatleigh. These heifers have performed well since arrival and have grown out well. They present in ideal condition for heifers. They are clean in the coat, what i would describe as meduim to large frame and most suitable for a breeders program. Fully up to date with health treatments, including Pestiguard. Heifers that are priced to sell and you wont be disappointed with the quality.
