Notable Traits	Traits 1 Head Light Pink Eye Scarring		
Assessor Comments	Outstanding line of 2024-drop PTIC Angus heifers, joined to commence calving early September 2026 over an approx. 30-day calving period. Joined to industry-leading Galimbang Angus heifer-specialist sires, by sons of Baldrige 38 Special, Wrigley Supreme and Chiltern Park Quantum. All sires are genuine low birth weight, high calving ease bulls. Team averages: BWT 1.9 (top 15%) and CE Direct 8.6 (nearly top 5%).Heifers are well grown for age and in ideal condition for this stage of pregnancy. Classed as breeders and only offered due to calving timing not suiting the vendor's revised program. Vendor uses elite Angus genetics with a strong focus on Birth Weight, 600-Day Weight and IMF. Galimbang cattle are proven performers on feed and are highly sought after by repeat feedlot buyers. A genuine opportunity to secure quality Angus genetics from a leading Adelong district herd. See attached PDF for sire and preg testing details.
