Assessor Comments	A group of 11 impeccably bred rising 2year old Females that are well grown of medium frame for age. Bred from within the commercial program of the Granite Ridge Stud and have calved to registered Granite Ridge Sires. These females are moderate boned, deep sided, soft with capacity and are visually appealing and would fit well into any discerning cattleman's program. A very tidy group of females that are just showing visual signs of being in calf, PTIC to a low birth, calving ease sire with growth data. * 4 Heifers have a white udder (breed acceptable) * 2 Heifers have a cloudy spot on their eye (not detrimental to the beast) Note - The Vendor has 3 lots on offer totaling 34 Heifers that are be offered in this sale.
