Assessor Comments	An opportunity to secure a line of vendor bred two 4th and 12 5th calving Hereford Cows jammed packed with Injermira Hereford Blood. These cows are Ptic to commence calving Late July/Aug to the Injermira Bull S004. These cows are moderate farmed with a couple of larger framed cows they are very quiet and handle with ease.The vendors have been breeding Hereford cattle for 60yrs and for the last 28yrs they have used Injemira Hereford blood. The only reason these cattle have become available is the vendors are moving away from breeding.
