Comment on Fat Score 1 Cattle: Cattle are in strong forward order

Vendor Bred	Yes
Stock History	Cattle were purchased with property acquirement
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Telpara hills and quality Brangus genetics
Grazing Conditions	Green improved pastures, Buffel, green panic and natural grass varieties Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
WHP/ESI	Cattle are within a Withholding Period or Export Slaughter Interval for: Exzolt as of 03/03/2026 for 14 days

Vendor Comments	Excellent line of PTIC heifers that we secured with the purchase of a property. We are only selling due to not fitting our Wagyu operation. A quality line of heifers that are in calf to high quality bulls. The fertility of these females is excellent.
Joining Details	Station Mated - Continuously Joined Bull Breed(s): Registered Angus, Ultrablack Bull IDs: Telpara Hills and Angus bulls
Preg Tested?	Yes, this lot was pregnancy tested, by Dianne Woods (Vet) on 03/03/2026. 78 Head (100%) PTIC, from 3 to 5 months (at time of assessment 03/03/2026). Certificate Available.
Pregnancy Terms	AuctionsPlus Standard Terms apply.
Temperament	Yards: Docile: 10 head; Quiet: 50 head; Slightly Stirry: 16 head; Stirry: 2 head Crush: Docile: 10 head; Quiet: 30 head; Slightly Stirry: 30 head; Stirry: 8 head Paddock: Docile: 20 head; Quiet: 45 head; Slightly Stirry: 13 head Heifers were under a lot of pressure in the crush as being run in that morning and preg tested at assessment. As you would expect some were agitated in the crush but as a whole no issues to preg test and worked well. Outside in the yard and in the paddock the cattle worked well, they are well educated to draft and handle. You will see in the videos as they were let out of the yards they simply walked out at a steady rate. As a whole they'll be an easy care mob of heifers
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot
Assessor Comments	This is a young, quality line of predominantly black heifers (4 red), all classed as number 4s and bred to Telpara Hills and Angus bulls. A tight pregnancy window of 3-5 months was achieved and proves the fertility included. Most are low-content Brangus or Ultrablack types, so their calves will be low-content and suited to high-end markets. They're EU-accredited, guaranteed clear at pickup for clean-country buyers, and carry elite genetics—a rare, valuable addition to any breeding program. Questions? Please feel free to call anytime.
Assessor	**Joshua Heck (Level 2 Accredited)**
Delivery Period	09/03/2026 to 12/03/2026 (4 days)
