Handled With	Cows were very good to handle through assessments					
	Bikes , Dogs , Horses , On foot					
Assessor Comments	All the hard work is done! A fantastic opportunity to secure a line of Ultrablack first calf heifers and Angus calves, with 29 of 33 being 3 in 1 package. These heifers are doing a wonderful job on their first calf and 29 are PTIC back in calf to "Glenoch Angus" Bull with the remaining 4 being undetectable at preg test though still running with bull. These young cows are all #4's along with their proven fertility they will have their entire breeding life ahead of them. They were very good to handle through assessment and are handled frequently using horses and dogs. All heifers were showing good udders and their calves are the proof of the great job they are doing. Calves averaged 210kg at assessment with 20 steers, 13 heifers all being sired by "Glenoch Angus" Bulls. These young cows would make a great addition into any existing mob or would suit someone making a start with the calves not far from weaning for early income. Please note that some cows have got some spots of fly rub.
