|                        | Heifers were outstanding to handle with in large yards and in confined spaces. They have had plenty of handling since purchase and this shows in the docility of the cattle. The odd heifer was slightly stressed in the weighbox.                                                                                                                                                                                                                                                     |                                           |                                     |  |                 |  |           |     |           |     |           |     |           |     |      |     |  |  |  |

| Assessor Comments      | A high quality line of Angus heifers PTIC to high indexing LBW Ben Nevis bulls. These heifers were joined to be retained by the vendor but due to continuing dry weather the heifers are being offered for sale. Heifers show great growth for age and will make outstanding matrons in the future. These heifers are due to start calving early June for a short 6 week period. Please note: There is a run of 156 of these heifers being offered as a run out the gate in deck lots. |                                           |                                     |  |                 |  |           |     |           |     |           |     |           |     |      |     |  |  |  |
