Assessor Comments	An opportunity to secure the Genuine Herd Dispersal of the 'Orlando Farms' Autumn-Winter calving females in a neat B-Double line. This portion of females are being offered only due to the deteriorating season. A youthful line-up consisting of 1st to 3rd calvers. The females with calves have had them weaned early to ensure they are on a rising plane for their next cycle. Joined to Larrikin Angus bulls for the second consecutive year; a proven cross with a track record of calving ease. These are "ready-to-go" breeders with their best years ahead of them. Carabar Angus blood, Tested by a Vet, Always calmly handled.
